

Let me ask you a question...

**Do YOU Make Your Own Travel Bookings?**

***While you might believe you are getting the best travel deals, but I bet you didn't know this...***

There are actually only 2 huge companies that own the vast majority of online travel booking sites... **TWO HUGE COMPANIES!**

# Take A Look...

## Expedia Group owns:

AirfareWatchdog.com  
**CheapTickets.com**  
CruiseShipCenter.com  
**Expedia.com**  
**Hotwire.com**  
**Orbitz.com**  
SliverRail.com  
**Travelocity.com**  
Venere.com  
IndependentTraveler.com

BookingBuddy.com  
ClassicVacations.com  
ebookers.com  
HomeAway.com  
IgoUgo.com  
RatestoGo.com  
SmarterTravel.com  
**TripAdvisor.com**  
VRBO.com

CarRentals.com  
CruiseCritic.com  
Egencia.com  
**Hotels.com**  
LastMinute.com.  
SeatGuru.com  
Traveldoo.com  
**Trivago.com**  
Wotif.com

## Booking Holdings owns:

**Priceline.com**  
Travelweb.com

**Booking.com**  
Lowestfare.com

**Kayak.com**

This means that you're at the mercy of their pricing **CONTROLS!**

***Here's a secret... YOU can buy travel at truly incredible savings that are not available to the general public through my wholesale travel club... prices that are far below the supposed discounts these booking sites offer you and with more services included?***

# Here's how it normally works...

**Step 1:** You sit down with your family and brainstorm ideas about where you'd like to go on vacation. You might be using vacation idea magazines that are quite helpful... you might be surfing the Internet. Once you decide on a probable vacation destination in mind... maybe even a specific resort or hotel... then you move to the next step

**Step 2:** You naturally want to find the best travel prices out there... right? So, you compare the rates on the popular travel sites.

You might check Expedia, Trip Advisor, Travelocity, Hotwire, Orbitz, and Trivago... right?

Guess what... those are all owned by the same company, the Expedia Group... and their prices are ALL essentially the same!

You might even try Priceline's name your own price tool... even when you enter a price that you think is fair, even if it's really close to the other companies prices, they don't accept it... you're back to square one.

**Step 3:** After you check several of the different online travel sites with no luck, what do you do?

**YOU RESIGN YOURSELF TO PAYING THE PRICE YOU'VE ALREADY FOUND... and book it.**

Then, the REAL shocker comes - the taxes and fees are added... another hundred bucks or so.

**Once again, the reason the travel sites ALL have the same prices is because they're all the SAME COMPANY!**

**Good news! There is another solution...**

**Discover How We Can Help You Save Up To 75% On Hotels & Condos At The Same Resorts! How Is That Possible?**

## **THE FIRST BIG SECRET...**

**WE DO NOT SELL TRAVEL!**

Before you learn how we get our amazing deals, it important you understand that we do not sell travel... and we are not compensated for travel. We sell memberships to a private travel club that offers amazing deals on travel and other things and our members win by experiencing big savings.... and that's the key!

## **RATE PARITY...**

Rate parity is a practice that forces public booking travel sites to keep their prices similar to the hotels main website. They get their prices at net-rate wholesale, then mark them up 20% 50%, 100% or more.

## **NET-RATE WHOLESALE PRICING!**

Our travel engine is not available to the general public. It's found inside our protected paid members area. Because of this, we can offer net-rate wholesale pricing to our club members.

Instead of marking up the pricing like the public search engines do, our providers make money on Memberships that use a much smaller mark-up. This means real savings for you and our members.

## **OVER 4 MILLION MEMBERSHIPS SOLD!**

Because our Members-Only Travel Engine is powered by a 23 year old company with an A+ rating with the BBB which has already sold over 4 Million Memberships, you know the deals are real.

Once again, there are 2 major companies controlling the industry... Expedia Group and Book Holdings. The prices are kept uniform by the larger company, but the smaller one is always within \$10 or so as well.

The cost of their advertising is what keeps their pricing constant... the fact is they could offer a lower price if they didn't spend so much on advertising.

But they have such a large share of the industry, they can push prices up to cover advertising expense since there is so little competition.

# Travel Is One Of The Most Popular Ways To Vacation In The World...

Travel is an 8 Trillion Dollar per year industry, worldwide. People want to travel the world... go to other countries... see new places... and do new things. And the travel industry provides that escape!

But it can be SO EXPENSIVE!

*So, there's just has to be another way to get better travel prices... right?*

***There is... and here's the SECRET!***

The way to get around parity pricing is to join a travel club, which does not have to follow the parity price rule.

There are a lot of travel clubs out there... prices range from super cheap to a thousand bucks or more yearly.

They ALL charge a monthly membership fee... they don't allow the general public to buy travel... just club members... so they are exempt from the parity rule.

We even show you the total price of your booking, including the taxes and fees that the other guys don't show you up front... **no surprises!**

Our travel club membership also includes our Benefits Hub Savings Portal... **SAVE ON EVERYTHING, NOT JUST TRAVEL!**

# Why Should YOU Choose Travel as a Home-Based Business?

The travel and tourism industry is **one of the world's largest industries** with a global economic contribution (direct, indirect and induced) of **over 8.27 trillion in 2019**. And it's expected to reach over 12 trillion dollars in the years to come.

This is not a fad. And the only way people can get these kinds of amazing deals is through a private members area like we offer at Savings Highway Global.
